

Repatriation of Japanese Remains and Artifacts

- 1) Work as liaison between U.S. entities and Japanese Agencies to repatriate Japanese remains and artifacts found on U.S. soil back to Japan and prepare items for repatriation meeting or exceeding Japanese requirements.
 - (1) Inventory items describing in detail in both English and Japanese what the item is and its significance.
 - (2) Coordinate with Japanese receiving authorities of the items to be returned.
 - (3) Prepare the items for shipment (appropriately package and prepare for shipment).
